

REVOLVER X2

HARD ROLLING COVER

Introducing the BAK *Revolver X2*, featuring exclusive automatic rotational locking rails that secure the cover the entire length of the bed on each side. This hard aluminum roll-up cover easily rolls up with one-handed operation and allows use of every inch of the truck bed without blocking your rear window. This cover does it all with unrivaled strength, security and style.

FEATURES:

- Patented locking rails
- Easy to use automatic latching system
- No lifting with easy one-handed rolling design
- Easy clamp-on installation
- No Velcro® or stitching
- 100% bed access
- Tough security
- Full access to stake pocket holes for accessories
- 3-year warranty

ACCESSORIES

BAKBOX2

FOLD-AWAY UTILITY BOX

The *BAKBox2* is a convenient storage solution designed to work with the new *Revolver X2* and the entire *BAKFlip* series. As the most versatile toolbox on the market, the *BAKBox2* can be positioned anywhere on the rails and organizes your valuables underneath your locked tonneau. Best of all, the *BAKBox2* folds out of the way to give you back your entire truck bed cargo space.

FEATURES:

- Convenient storage
- Folds away for full bed access
- Includes sliding tray for small items
- Box dimensions: 10" X 10" X bed width
- Sturdy no-drill clamp-on installation
- Solid core 1/2" thick FRP composite panels
- 1-year warranty

REVOLVER X2: HOW IT WORKS

LOCKING RAILS

UNRIVALED SECURITY!

The *Revolver X2* comes equipped with 3/4" Patented Rotational Locking Rails that lock the cover securely the entire length of the truck bed when latched. The 3/4" locking rail or "tooth" rotates into composite locking blocks inserted into each aluminum slat. The cover secures automatically when the spring loaded locking levers are engaged as the roll top is closed. Now the locking rail and blocks are **2X** larger, providing extreme security, easier installation and superior off-highway performance. Heavy-duty locking levers are now **3X** thicker with reinforced gussets for added strength and are engineered to lock with no adjustment necessary.
